

Flexible Refrigeration Solutions With Bergen 2 From Arneg

ITALY

Unleash your creativity with **Bergen 2**, the plug-in promotional cabinet designed to offer maximum in-store versatility and customisation. Available in different modules and highly customisable, **Bergen 2** suits any kind of space requirement.

With **fully panoramic side panels** and a built-in condensing unit, it can be placed as a front-on unit, and, as the most flexible solution available on the market, it can also be used as an **individual module, back to back, side by side, or as an island, with headcases.**

Eco-friendly thanks to propane, **Bergen 2** works with normal or low temperature, suitable for a wide range of products such as **frozen food, ice cream, pre-packed products, dairy products and meat.**

Bergen 2: a practical and effective solution for modern and dynamic retail stores.
