Arneg Introduces Osaka 3 LX, The Luxury Serve-Over Counter

Published on Mar 26 2020 1:55 PM in Technology tagged: Trending Posts / Refrigeration / Arneg / World News / Euroshop 2020 / Osaka 3 LX

Elegant and minimalist, Osaka 3 LX is one of the brand new products presented at Euroshop 2020 by Arneg.

It is a glass door, multi-deck wall cabinet, whose excellent functional and aesthetic traits combine with the most innovative cooling technologies.

All the best features of Osaka 3 LX are standard fittings: low consumption fans, latest generation LED lights, ultra-slim adjustable shelves able to adapt to all display needs, and 'full vision' doors, all combined for an optimal energy performance.

Equipped with Arneg Air System technology, it guarantees no more defrosting, 37% less energy consumption and constant food temperature.

Its large storage volume marries with simple installation and maintenance, and unrivalled ergonomics.
